Rezoning – Joseph M. Mason, Jr. – 50/50 Land Trust (H-08-30) Approved the P&Z Commission recommendation with the following stipulations: that first and foremost to include Comm. Stabins' suggestion to increase the natural opacity between the park and the property to exceed what had been specified by the P&Z Commission to 90%, leaving the natural vegetation; that the petitioner continue to pursue a traffic signal with DOT and to conduct the study that was requisite for that, and also he would like to set chronology as far as how long that requirement would linger, if five years from now DOT came back and stated that because of the increased traffic flow, it was ready for a traffic signal, to stipulate that that should extend 5 years; and with concerns to the deceleration lane, with concurrence from DOT, he would like to see a deceleration lane constructed to the entrance off SR 50.
